SPARE PARTS ORDER BOOKS

Dear Sir(s),

May we remind you that there are available for your use, Spare Parts Order Books. These books contain duplicate order forms, so that you always have a copy of your order available for ready reference.

There are the usual columns, namely:-

- | | |
|-----------------|-----------------|
| 1. Quantity. | 4. Bin number. |
| 2. List number. | 5. Price each. |
| 3. Description. | 6. Total price. |

By using these order books and completing columns, 1, 2 & 3 (and columns 4 & 5 at your option) there can be no mistake as to your requirements, and the order can be issued immediately to our Stores, saving time and giving speedier service.

Many Dealers already make use of these Order Books, but there are others who, probably due to the fact that their availability has not been brought to their attention, still use ordinary order forms and very frequently do not give the List Number of the item required. This entails extra work in our Service Department, slows down delivery, and can lead to mistakes. It is, therefore in our mutual interests that these Order Books should be freely used. If for any reason you are not taking advantage of this facility please indent "1 Spare Parts Order Book" which will be forwarded immediately, Free of Charge.

Yours faithfully,
THE ENFIELD CYCLE COMPANY LIMITED.

W. C. L. Brooks

Service Manager.
