

Issue No.1.

March, 1962.

Published by The Enfield Cycle Co. Ltd. Redditch.

---

Editorial.

This is the first edition of the newsletter, which we hope to print regularly. For a paper of this sort to be a success good printing matter is required. Although we have a few news items for this edition, with the dinner and a Works visit only a few weeks behind us, we look to apprentices for future material. News, views and comments, ~~plus~~ cartoons and jokes (clean) are required. If you have any of these, please submit them to any of the committee members. Below is a committee list, which you the apprentices democratically elected last year. They are there to help you if possible, so if you ~~have any ideas~~ on management of apprentices affairs please come and see us.

It is hoped to run some apprentices functions in the near future, including a trip to London and possibly a dance. Activities of this kind could earn the respect of the Locals and assure a good future for the Association.
